

Your Impact in One Year.

Every year, West Marin's coastal communities send local high school graduates to college campuses across the country — and every year, the cost of getting there grows steeper. This year, thanks to donors like you, **69 local students didn't have to choose between their ambitions and their means.**

From Fall 2025 through Spring 2026, we awarded \$575,000 in scholarships and, for the first time, launched a **Summer Internship Grants Program** — placing 6 scholars in hands-on internships with local businesses and nonprofits within our community. And thanks to the generosity of our donors, we were able to fund all academically qualified and financially eligible applicants this past year.

A SCHOLAR'S STORY

"I am the first in my family to have the opportunity to go to college, and I am shooting very high for my career with a track to pre-med or a PhD."

"I have a lot of gratitude for our community, if you gave me a pen to write those words I would run out of ink!"
